Independent Skill Development Mission

INDIA'S 1st AI ENABLE INSTITUTE

NxT Certified

MACHINE LEARNING & ARTIFICIAL INTELLIGENCE PROFESSIONAL

LEARN. BUILD. INNOVATE. LEAD THE FUTURE.

The NxT Certified Machine Learning and Artificial Intelligence Professional course is designed for students who want to build a strong career in the world of AI and Data Science. You will learn the core concepts of Machine Learning, Deep Learning, Data Analytics, and AI tools through hands-on projects and real-world case studies.

This course will help you develop the skills to create smart solutions, solve complex problems, and become future-ready for high-growth careers in technology.

THIS COURSE IS FOR WHOM?

- Students & Graduates
- Basic Knowledge of Computers
- Curious Learners Who Love to Explore New Technologies
- Future Tech Enthusiasts & Problem Solvers
- Anyone Eager to Build a Career in AI & Data Science

ELIGIBILITY

- 10+2 (Any Stream) with Mathematics (Recommended)
- Basic Knowledge of Computers
- Interest in Programming, AI & Data Science
- Logical Thinking & Problem Solving Attitude

WHAT YOU WILL LEARN

- Python Programming
- Statistics & Probabillity
- Machine Learning Basics
- Deep Learning
- Data Analysis & Visualization
- Natural Language Processing (NLP)
- AI Tools & Frameworks
- Model Training & Evaluation
- Real-world Projects & Case Studies
- Deployment & Industry Applications

WHY JOIN THIS COURSE?

HIGH DEMAND SKILL
AI & ML skills are in high demand across industries worldwide.

JOB OPPORTUNITY
Open doors to top careers in AI, Data Science & Tech.

FREELANCING OPTION
Work on global projects as an AI/ML freelancer and earn well.

BUSINESS OPPORTUNITY
Build AI-powered solutions and startups for real-world problems.

PERSONAL GROWTH
Upgrade your skills, boost confidence & stay future-ready.

CERTIFICATION
Get industry-recognized certification to validate your expertise.

8 POWERFUL MODULES

01 Introduction to Machine Learning & AI
Understand ML concepts, types, applications and real-world use cases.

02 Supervised Learning - Regression & Classification
Learn algorithms to predict outcomes and classify data accurately.

03 Unsupervised Learning & Clustering
Discover hidden patterns and group data using clustering techniques.

04 Deep Learning & Neural Networks
Build deep neural networks and explore advanced deep learning models.

05 Natural Language Processing (NLP) & AI Chatbots
Work with text data, build chatbots and apply NLP techniques.

06 Time Series Forecasting & AI in Finance
Forecast trends, analyze financial data and apply AI in finance.

07 AI Model Deployment & Cloud Computing
Deploy ML models using cloud platforms and scalable AI solutions.

08 Capstone Project & AI Ethics
Build real-world AI projects and understand ethics & responsible AI.

WHAT YOU GET

- Industry-Focused AI & ML Curriculum
- Hands-on Projects & Real-world Use Cases
- Expert Mentorship & Guidance
- AI/ML Tools & Frameworks Training
- Interview Preparation & Mock Tests
- Certification & Career Support

YOUR CAREER PATH

- **Machine Learning Engineer**
  Build intelligent models & predictive systems
- **AI Engineer**
  Design & develop AI-powered solutions
- **Data Scientist**
  Analyze data & extract valuable insights
- **Deep Learning Engineer**
  Work on neural networks & deep learning applications
- **NLP Engineer**
  Build solutions for text, speech & language understanding
- **AI Research Engineer**
  Innovate & advance AI technologies
- **AI Product Developer**
  Create AI-driven products for real-world impact

BENEFITS THAT SET YOU APART

- High Demand AI/ML Roles
- Attractive Salary Potential
- Work on Real AI Projects
- Global Career Opportunities
- Cutting-edge Technology Exposure
